As a United States Marine Corps veteran turned full-stack web developer, I bring a unique combination of discipline, dedication, and technical skills to my work. I am passionate about producing high-quality user experiences and collaborating with others to develop innovative solutions. I am excited to apply my skills to the success of your team.

Technical Skills

HTML - CSS - Bootstrap - JavaScript - jQuery - Java SE - Java EE (Servlets, JSP) - Spring - MySQL - Thymeleaf - Object-Oriented Programming - Test-Driven Development - Version Control with Git - Paired Programming - IntelliJ IDEA

Development Projects

[Rug World](#)

Rug World is a web-based application that provides users with the ability to perform CRUD (Create, Read, Update, Delete) operations on rug-related data. The application utilizes a MySQL database to store and manage the data.

Environment: JavaScript, CSS, HTML, Java, MySQL.

[WeatherVoyage](#)

Weather Voyage is a web app for 5-day weather forecasts, searchable or via drag-and-drop on a map. Get location-based alerts too.

Environment: API requests, AJAX, jQuery, Bootstrap, CSS, JavaScript.

[Movie app](#)

Single page application in JavaScript that implements Ajax Requests to allow users to add and delete movies from a database as well as rate them and edit the ratings.

Environment: JavaScript, CSS, HTML, Bootstrap, and JSON file along with a paired programming partner.

Military Experience

USMC - Camp Pendleton, CA

Weapons Custodian / Aug 2020 - June 2022

- Arranged movement of weapons, and accountability techniques with senior leadership.
- Created and maintained a detailed Excel spreadsheet to track all weapons I was responsible for.
- Maintained accountability and serviceability of thousands of dollars' worth of military weapons and sensitive equipment with no losses.

USMC - Camp Pendleton, CA

Infantry Rifleman / June 2018 - Aug 2020

- Implemented various tactics to accomplish challenging tasks, various uses of small arms, and close-quarter tactics.
- Mastered advanced soldiering skills such as teamwork, discipline, training, communication, and first aid.
- Coordinated fire and troop movements with other personnel and units during training exercises.

Education

Codeup

Certification of Completion

Sep 2022 - Feb 2023

A fully-immersive, project-based, and intensive 20-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development.
